PROFILE

Senior Account Manager and IT solutions professional with 7+ years of experience in digital transformation, SaaS implementation, business consultancy, project lifecycle management and business development. I manage client portfolios, gather requirements, understand SOWs, set the right expectations and stay with the project through delivery and after-sales support. Hands-on Python and Django background, so I can sit in a technical review with developers and infrastructure engineers as comfortably as in a contract negotiation. I work as part of the client's own team, not as an outside vendor.

KEY ACHIEVEMENTS

30% revenue growth
For the development department, the highest growth in more than five years, from account management and new business development.

$1M+ a year
Negotiated one- and two-year enterprise agreements, including maintenance and ODP packages, worth over $1M annually.

Competitor win, phase 1 in 6 months
Won the Pay Later app contract from a competitor without lowering the price, then delivered phase 1 in under six months.

40% above sales targets
Beat quarterly targets across a portfolio of 20+ enterprise clients, with 25% higher client retention.

Built live platforms
Designed, built and launched my own production platforms: property operations, corporate websites as a service, Gulf company data, an internal sales portal, e-commerce and a motion catalogue. Details on request at njw3.com.

Rebuilt from scratch
Relaunched a family abaya clothing business after a fire, brought it back to peak performance and grew wholesale trade into Iraq and the UAE.

EXPERIENCE

Senior Account Manager, Project Development
2021 – Present

KUWAITNET General Trading & Contracting Co. | Kuwait

Senior Account Manager from September 2026. Account Manager from 2021 to August 2026.

- Built a portfolio of 20+ enterprise clients and beat quarterly sales targets by 40%.
- Raised client retention by 25% through post-sales support and technical advice.
- Pitched products, services and combined packages, lifting successful contract negotiations on complex IT projects by 30%.
- Negotiated sales terms, maintenance and ODP packages and long-term contracts.
- Advise clients across KUWAITNET's services: Red Hat, AWS cloud, managed infrastructure, domains and VPS, and cybersecurity.
- Work with design, development and infrastructure teams so web and mobile projects meet scope, budget and timeline.

POS, Business & IT Solutions Executive
2020 – 2021

H-Tech Solutions | Kuwait

- Beat sales goals by 30% through client engagement, needs assessment and negotiation.
- Ran the full POS client cycle: cold calls, requirements, proposal, contract, system setup, delivery and 3 to 4 days of on-site training.
- Led corporate website and e-commerce projects from contract to design, development, QA and launch on the client's chosen hosting.
- Built custom solutions on WordPress, NopCommerce and Shopify, and handled installation and troubleshooting.

Mobile Application, Solution Architect **2018 – 2019**

Zara Pvt. Ltd | Pune, India

- Managed the company's mobile application, including in-product messaging and promotional campaigns.
- Contributed to a 15% improvement in customer satisfaction by promoting product trials, store credit options and exchange policies.
- Handled daily inventory updates and new product arrivals.
